

YQCA Certification Accommodations

YQCA is committed to providing a quality assurance program to meet the needs of all learners. Below are accommodations we've made available throughout the modules so students are able to complete the module themselves.

When Purchasing

- Select the level of training that best meets the needs of the youth.
 - If a 15-year old youth's IEP or 504 plan recommends the youth be allowed to work at a lower age-level, select the appropriate age-level module to complete. Be sure whoever is requiring the YQCA certification approves this and is aware the youth's certificate will state an age level that does not match their age.

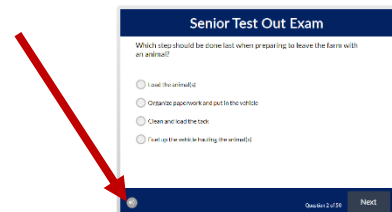

When Completing the Web-Based Certification

- Select audio button to have on-screen text read aloud
- Access the audio script and read along to reinforce the audio throughout the Knowledge Builders and Skills Labs
- Have online quiz read by proctor

When Testing Out

- Select audio button to have on-screen text read aloud
- Have online quiz read by proctor

When Completing the Instructor-Led Certification

- Instructors may accommodate their training according to the youth's IEP or 504 plan
