STEP 5

Retrieve email to validate registration and complete parental consent.

A new 'YQCA' account has been requested using your email address.

To confirm your new account, go to this web address:
<https://yqcaprogram.org/login/confirm.php?data=fHo0KcDcj8EmehN>

By giving consent you are agreeing to YQCA's collection, use, and disclosure of information as set forth below* and in our [Privacy Policy](#).

In most mail programs, this

Validate Registration

Please visit the email address provided during account set-up to validate your account as well as provide parental consent for sharing your child/children's details with third parties (state 4-H/FFA contacts, national species organization representatives, and fair and show managers). Until you validate your account using the YQCA email notification email, your account will not be activated.

If you have provided a mobile number during the account set-up, you will receive alerts concerning your parental consent whenever your account is accessed or whenever a course is launched or completed.

For your information, once a course is launched—and through its completion—access to the main navigation will remain inactive so as to prevent your child who is taking the course from gaining access to your account settings. After the course completion, to gain access to the account, you will have to login again.

We recommend:

- You do not share the account credentials with your children or others who should not be having access to your account and the settings.
- You always provide a mobile number during the account set-up or from your account settings at all times so that you are alerted on your mobile device whenever your account is accessed.
- You add YQCA email address and mobile number to your safe list so that they are not marked as spam, which may result in you missing important notifications & alerts.

You can revoke the parental consent at any time by updating the same through your account settings.
